TELSTAR REGIONAL HIGH SCHOOL
BETHEL, MAINE

As you depart from Telstar Regional High School, you will undoubtedly receive countless offers of advice. In many instances, it will not be for many years that advice someone offers now will have any importance to you. It is usually as we become parents that many of the things we learned as students have a stronger meaning. Often I reflect upon the comments the commencement speaker at my high school graduation closed with. Hopefully, they will have some significance for you.

"You will work for a long time. Choose employment you enjoy as opposed to that which pays the most. Be true to your faith, it will sustain you during the trying times you will face. Choose a mate wisely, it is the most important decision you will make."

My very best wishes to you in all that you attempt.

Kent E. Rosberg, Superintendent

TO THE MEMBERS OF THE CLASS OF 2001

What a wonderful time it is for you in your lives! You have achieved success in meeting one of life's first milestones. You are a graduate from high school, young adults, with the world awaiting your energies. During your four years at Telstar your teachers have prepared you to meet the challenges that lie ahead as your parents and friends supported you in making crucial decisions about school and what the future may hold for you. Now you are ready to make your mark as you enter a very competitive worldwide society. Some of you will attend college in the fall, others the military, and still others the world of work. Regardless of the path you choose be successful in your choices and be safe. Remember your alma mater as you take your place in the history of Telstar as a proud alumnus.

Patrick H. O'Neill, Ed. D
Principal

TO THE CLASS OF 2001

Congratulations! You are about to leave four years of high school behind. You will enter into a new phase of life where decision making will determine whether or not you meet your goals.

Most of you have been positive role models, setting the standards for underclassmen to follow. Many of you have taken the responsibility to work hard, set goals, and produce a record that will propel you to the next level. What will your contribution to society be?

Some of you will be off to college or the military next year while others will enter the world of work. As you pursue your career goals, remember that employers are most interested in inter-personnel skills, problem solving abilities, communication skills, technical knowledge, a high energy level, and good judgment.

Your education at Telstar has provided a solid foundation for life. Take what your teachers, parents and friends have taught you and invest the energy and effort to create bold new solutions so that future generations can inherit a better world. An individual can make a difference; a group of individuals working together can make a change that will benefit everyone.

Best Wishes,

Carroll Higgins
Assistant Principal/Athletic Director

Each Day of Your Life Happier

Every day . . .
Share a kind word with a friend.
Give away a smile.

Listen with your heart to what someone cannot say.
Try one new thing.
Forgive one person who has hurt you.
Forgive yourself for past mistakes.
Realize your imperfections.
Discover your possibilities.
Make a new friend.

Accept responsibility for everything you do.
Refuse responsibility for anyone else's actions.
Dream one dream.

DEDICATION

Telstar High School's Class of 2001 dedicates this yearbook to Mr. Rodney Abbott. Everyone associated with Telstar High School since 1971 would like to thank Mr. Abbott for his devotion to the school. Rumor has it that Mr. Abbott is a devoted fan of rock star Tina Turner. When Ms. Turner announced her retirement last year at age 60, her representative said of her "She wants to go out on top, while . . . at her best." Mr. Abbott, we know you have always given us your best, and you'll always be tops with us.

The Class of 2001 wishes you the very best of luck in the future.

A lot of people should seriously think about this story Sure I'd love to play chess with you. There's only one problem. I don't know how. That's not a problem. I'll teach you. You're forgetting one thing. Which is I am an idiot. Lots of idiots are great chess players. I read in the paper everyday how they're teaching monkeys and elephants and soon, perhaps even slugs and one-celled organisms, which are surely even stupider than you. That's true. I could probably learn. After all I'm just an idiot. A lot better off than these other people around here. A bunch of morons. -Aaron Cometbus

I wanted to thank a few of my teachers. They are Mrs. Savage, Mrs. Alford, Leslie, Lorene, Amy and last but not least Mrs. Belling for believing in me when I didn't believe in myself pushing me to pass in all my homework in on time and they believing in me that I could get my CNA (Certified Nursing Assistant) License. You all mean the world to me and I will never forget you. You all will be in my heart. I also wanted to thank my parents for being there for me; pushing and seeing me go through school. I want to say thanks to a couple of friends J.L.M, A.C.L, B.P.D, J.W, J.E.T, A.L.T, J.L, and all my other friend's that I didn't mention. The most important person I want to thank is my grandfather, Ivan, for watching over me and guiding me to do the right thing in school and in life. I wish you were here to see me graduate "Love you grandpa Ivan" and I miss you. Best Wishes to the Class of 2001

Into the world we are born with the potential to fly. This capability is given to us, and it is upon our shoulders to gather the feathers to make our wings strong. People, situations and knowledge give us the material with which we construct our wings. Thank you to all those who have guided me toward those "feathers." Though my wings are still weak, I am ready to fly. "Yes! Yes! Yes! He would create profoundly out of the freedom and power of his soul . . . his soul had lept at the call. A brother is someone who is more than just family, his friendship is one of a kind and the closeness you've shared through life's laughter and tears is the deepest you'll ever find.

To Amber,
I found this poem in a old book and thought it was appropriate. Of all the things Dad and I could wish for you. It's that you follow your dreams.

Be a Dreamer

Dare to dream
for dreamers see tomorrow.
Dare to make a wish
for wishing makes way for hope.
And hope is what keeps
us a live.
Dare to reach out
for the things no one else can see
Be unafraid to see what others cannot
Believe in your heart
and in your own goodness,
for in doing so
others will believe in them too.
Believe in Magic
because life is full of it
But most of all
Believe in yourself . . .
Because with in you lies
All of the magic,
the hope, the love
and the dreams of tomorrow.

-Ron Cristian-

We love you Ambie and are so very Proud of you.

Amber

Even though we have been living very far apart, you are never far from my mind. There are always little things that remind me of you and the memories we share. What were those things in the trees? Maybe it's a West Virginia thing? I remember a certain incident with a wrestling match and a tv. I have been reminded of a time when I tried to share a Life Saver but got in trouble. Maybe that's why I don't like to share anymore. Anyway, we have so many good times and so many more to come. Words cannot express how proud I am of you and now you will be on your way to make some memories. Maybe I'll come visit you? No matter what happens and where you do, I know you will be a success. I love you Sissy and I am always here for you even when I'm 816 miles away. One piece of advice, this is where it starts Kiddo. Get ready for the rest of your life.

Lots of Love,
Sissa

My Son

Has Grown so Fast

A boy is a mischievous, magical creature,
An angle with mud on his face.
A daredevil climber of trees and of rafters,
who loves any game, any place.
Just like my son to leave his toys in the way.
You were six months old and full of fun.
With a blink of my eye, you were suddenly
one.
There were so many things we were going to
do,
But I turned my head and you turned two.
At two you were very dependent on me,
But independence took over and you turned
three.
Your third birthday, another year I tried to
ignore,
But when I lit the candles, there weren't
three but four.
Four was the year that you really strived,
Why, look at you now, you're already five.
Now you are ready for the books and for
rules.
This is the year that you go to school.
The big day came, you were anxious to go,
We walked to the bus, going oh, so slow.
As you climbed aboard and waved good-bye,
I felt a lump in my throat and tears stung my
eyes.
Time goes so fast, It's hard to believe that
just yesterday you were home with me.
And tomorrow when the bus brings you
home
And you jump to the ground,
You'll be wearing your cap and graduation
gown.
So I'm holding to these moments as hard as I
can,
Because the next time I look, I'll be seeing a
man.
And just remember, no matter how old you
get
Or how far away, you will always be my
Son.

JUST SITTING HERE HOLDING BACK THE TEARS THINKING OF ALL THE MEMORIES THAT WE HAVE SHARED. AS PARENTS WE HAVE ALWAYS CHERISHED OUR TIME TOGETHER, YOU ARE SUCH A LOVING, CARING DAUGHTER. ONE OF THE HARDEST THINGS TO DO, IS TO STEP BACK AND WATCH YOU SPREAD YOUR WINGS TO FULFILL YOUR DREAMS. JUST REMEMBER THAT WE LOVE YOU AND WILL ALWAYS BE HERE FOR YOU.

LOVE FOREVER
MOMMA & DADDY

Denise Marie Scotti,

I've been thinking about that hot muggy day you entered this world. How could we have known then how proud we would be of you seventeen years later! I remember how you 'scooped' instead of crawled and the hard negotiations (yes, even then) you had with Pa over the recliner. It's all passed so quickly. You must be thinking what a long road it's been. Actually, the journey has just begun. But no matter how far your dreams may take you, please remember it is never so far away that you can't come home. So on this journey take with you our love and the faith that you can do anything you set your mind to.

Love,
Mom, Dad, Tommy & Stephen
